Major William B. Robertson. president of the Robertson Aircraft Corporation of St. Louis, who employed Lindbergh as chief pilot on the St. Louis-Chicago route, said his company had cabled Lindbergh an offer to continue to fly for them when he comes back to America. He said Lindbergh would be offered a position as officer in charge of an aerial transportation service between St. Louis and New York.

Lindbergh was much interested in the projected line, Robertson said, and had even figured out the cost per mile and the cost per passenger. BUILDING OF SOUTH APPROACH TO FREE BRIDGE ADVANCED

Draft of Measure Approved by Service Board and Sent to Aldermen for Action.

The question of building the southern approach of the Municipal bridge, for which \$1,500,000 was provided in the 1923 bond issue, was put up to the Board of Aldermen today, for action before the summer adjournment. Drafts of ordinances for acquiring the right-of-way and authorizing construction of the approach were presented to the Board of Public Service by President Kinsey, approved by the board and sent to the Aldermen.

Kinsey obtained the approval of the Bond Issue Supervisory Committee for the southern approach measure, at a meeting of the committee yesterday afternoon. He told the committee that an engineering survey had shown the approach could be built for the sum provided, \$1,500,000.

President Neun of the Board of

President Neun of the Board of Aldermen was not ready to say how the southern approach measure would fit in with his plan for a general review of the bridge situation, and for the drafting of a "Board of Aldermen ordinance" to provide for use of the Municipal bridge by the railroads. A committee of 11, headed by Neun, has been selected to draft such an ordinance but has held not meetings thus far.

Construction of the southern approach is desired by the Manufacturer's Railway and the Alton & Southern, which would thus be enabled to use the bridge. It has been pointed out that the Missouri Pacific could then also use the bridge, by building a short connection, but the Missouri Pacific has not openly announced any plan to do so.

On Jaunt Over Terminal.

Members of the Board of Aldermen were the guests of President Henry Miller of the Terminal Railroad Association yesterday, on an inspection ride over Terminal properties, having inspected the Manufacturers' and Alton & Southern lines previously. One of the first questions they asked Miller was as to his attitude toward the southern approach.

was as to his attitude toward the southern approach.

"If you think best to build the southern approach, go ahead," the Terminal president told them. "We do not wish to be in the position of objectors. But if you build the south approach you will not get rid of the tracks in Poplar street, which the Terminal is planning to eliminate. We are planning an elevated structure to replace the Poplar street tracks, but the south approach would prevent us from building it."

Miller said the Terminal was ready to use the Municipal Bridge, but would not undertake such use under a mere license—there must be a contract covering a long period. Otherwise, he said, the improvements necessary for use of the bridge could not be made, as such improvements must be financed by long-term bonds.

Done With Citizens' Committee.

The bridge-exchange ordinance proposal, which died in the last session of the Board of Aldermen, and which was backed by a citizens' committee, will not be reintroduced, so far as the Terminal Association and its member railroads are concerned, Miller said. He declared that the railroads are "through with citizens' committees," and hereafter will present directly any legislative proposal that

they have to offer.

If the Aldermen desire an exchange of uses of the Eads and Municipal bridges, as in the proposed ordinance, Miller suggested that they should compute the value of the two bridges, and base an exchange proposal on the figures. Such a computation, he said, would bring out the fact that Eads Bridge is in good condition, and that much reconstruction had been done in the past few years.

Another point on which Miller insisted was that the Terminal Association, if it uses the Municipal Bridge for passenger trains, must make the train schedules. The Terminal is willing that the bridge shall be used by other lines, such as the Manufacturers' and the Alton & Southern, "but we are not going to have every Tom, Dick and Harry making schedules."

Won't Lift the Arbitrary.

Won't Lift the Arbitrary.

He said also that use of the bridge by the competing lines would not remove the bridge arbitrary charge, maintained by the Terminal on coal from within the 100-mile zone. He said the Interstate Commerce Commission, in his opinion, would not permit "one rate for South St. Louis and another for North St. Louis."

another for North St. Louis."

The route of the proposed southern approach, as outlined in Kinsey's bill, is: From western pier of railroad approach over Chouteau avenue, turning southwest and crossing intersection of Second and Rutger streets, thence south on Second to Lafayette avenue, the point of connection with city tracks and Missouri Pacific, thence south to Barton street, to a connection with the Manufacturers' Railway, and continuing to Lesperance street, where the pres-

ent grade will be reached.

Kinsey said that if the southern approach ordinance were passed by the Aldermen before their summer vacation, the contract could be let in August and the work could be completed within a year, unless delayed by condemnation proceed-

100,000 CHILDREN TO GREET LINDBERGH

New York Prepares Great Welcome for Flyer-Roosevelt Field Memorial Urged.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, May 27 .- While Grover A. Whalen, chairman of the Mayor's Committee for the reception of distinguished visitor worked yesterday on plans for the welcome to be accorded Capt. Charles A. Lindbergh on his triumphant return here from Europe and announced 100,000 school children of every nationality and from both public and private schools will be assembled in Central Park to greet the youthful airman following his official reception, Brooklyn turned its hand to arranging a reception of its own on Roosevelt Field, L. I., from whence "Slim" began his epochal flight of 3600 miles. Roosevelt Field Memorial Planned

Representative Robert Low Bacon of Nassau County, whose soil the "Spirit of St. Louis" last touched before it rolled to a stop on Le Bourget flying field outside the gates of Paris, announced he would ask President Coolidge and the Secretaries of War and Navy to lend their official approval to this plan. Nassau county officials approved the plan and District Attorney Elvin N. Edwards was quoted as saying a memorial tablet should be laid in the spot from which Lindberg started or else a movement begun to preserve the big airdrome — now threatened by real estate developments—as a permanent and useful memorial to Lindbergh.

Mr. Whalen said Capt. Lindbergh would be greeted by the assembled nultitude of boys and girls in Central Park with patriotic songs dear to this country and to France. intil Lindbergh has been escorted rom City Hall to whatever hotel he selects in New York as his leadquarters during his stay here.

To Be Procession of Triumph. After landing, Lindbergh, fol-lowed by a great float bearing his Ryan monoplane with the Wright whirlwind motor which carried im to France still intact, will be taken up Broadway in a procession of triumph to receive the city's official welcome from Mayor Walker at City Hall. The Army. Navy. Marine Corps. Air Corps. National Guard, Naval Militia. officials of the city, civic, patriots and commercial organizations will participate in the parade.

At City Hall the school children -assigned a part here as well as at Central Park-will get their first glimpse at the hero not so ong out of school himself. After the ceremonies there "Slim" will lead the parade up Lafayette street to Ninth street, where will turn west into Broadway and The Central Park affair will fol low and in the evening Capt. Lindbergh will be the guest of honor at a dinner given by Mayor Walk-

ORDINANCE FOR VIADUCT ON ARSENAL ST. APPROVED

Structure to Span River des Peres and Frisco Tracks Will Cost \$531,000.

A new ordinance for the construction of a viaduct over the Frisco tracks and the River des Peres at Arsenal street, to be 80 feet wide and 2000 feet long and to cost \$531,000-the Frisco Railroad to pay \$300,000 and the city out of bond issue funds the balance of the costs, was approved by the Citizens' Bond Issue Supervisory Committee yesterday.

An ordinance formerly approved by the committee was held up in the Board of Aldermen because it did not provide an outlet for traf-fic from the north and south, but only provided relief for east and west traffic. The new plan provides an approach which will connect up with McCausland avenue proposed when extended which s destined to be a major thoroughfare, running as far south as Gravois avenue and connecting with Skinker boulevard and Hodia-

mont avenue. The viaduct will be constructed on Arsenal street at a point 590 feet east of the east line of Jamiesson avenue west to the intersec-tion of Ellendale and Emilie avenues, on Jamieson avenue, a wing of the structure will be constructed to a point 200 feet south of the south line of Arsenal street, which will connect up with McCausland

Announcement Formally Given at Luncheon to Forestall Any Erroneous Reports.

the Associated Press.
LONDON, May 27.—News that Henry Ford is going to make a new car was top-head first-page news

The Evening News printed a lengthy account of a luncheon giv-en at the Hotel Metropole where a statement was issued regarding the new car, in which it was simply stated that it would cost a little to manufacture, but be cheaper to run.

It was explained that the Ford Company feared that erroneous reports about the design might reach London, and therefore gave out this much information here.

POLICE INVESTIGATE FIRE IN DRYGOODS STORE

-Soaked Overalls Found After Flames at 1002 Vande-

venter Cause \$3000 Loss.
Police and fire department officials are investigating a fire and explosion, which occurred early this morning in the drygoods store of Harry Koplan, at 1002 Vandeventer avenue, and resulted in damage of more than \$3000 to the drygoods establishment, a pawnshop next door, and to the two-story building. When firemen had put out the blaze about 2 o'clock, they found a bundle of gasoline-soaked overalls and other evidence that the place had been "drenched"

the premises when the fire ocm. Koplan said he had no knowledge of gasoline on the premises and said he did not know how the burglar alarm in his shop had been

Hicks palled with men of the inderworld. One of his close friends was William Davis, ex-con-vict and bootlegger. Another client to whom he paid \$57.14 a nth on a \$1000 investment was Henry Bostelman, ex-convict and ur thief. A third associate was John Dummeyer, former stock broker, who served a term in Federal prison for disposing of bonds stolen by the Egan gang in the downtown mail robbery in 1923. He had business relations with tese friends.

He had sailed close to shady deals. When a mysterious "W. B. Harris" came to town to sell bonds stolen in a safe robbery at Dayon, O. Hicks introduced him to brokerage house. The bond esman gave his address as 6347 Weilsmar avenue, where Davis parents reside. Hicks had becom

Schmitz & Shroder Again Leads the Field With an Exclusive Showing of

Tv/o-Pant Summer

The two-trouser idea in Summer Suits originated at Schmitz & Shroder. An economical idea . . . and a sensible one, too . . . for with coats worn so seldom, and the trousers getting the brunt of the wear . . . with the amount of pressing and cleaning that lighter Summer clothes require . . . Summer Suits with two trousers are both practical and necessary. At this store, every Summer Suit is sold with two pairs of trousers . . . and the cost is very little more than the price of ordinary suits with only one pair.

when he was kiled and closed its doors six days afterwards.

As a final disclosure of Hicks' sary to the murder, says he bevaried career, investigators found that this young third-rate lawyer, the head of several fourth-rate speculative companies, had \$365, some doubt as to the authenticity of the "auto accident" version.

Davis, who with Glenn Hicks is or is reticent to protect the last deal hounded him ever after.

The young lawyer, once having shreds of Clifford's reputation. Shreds of Clifford's reputation. The young lawyer, once having pers, said to a Post-Dispatch reporter: "Do I know what was in but that Hicks was beaten by enemies. Hicks' widow also expressed them? Maybe 1 do. Will I ever them? Maybe 2 don't think I will, though."

digning life insurance policies as make a deposit in the Union-Easthe only security for many of these ton Trust Co. and the barned why Glenn had burned the hands of gunn the only security for many of these loans. He was down to his last to the police that he was robbed on of the of \$5200. Afterwards r referred to "that Union-Daston a holdup crowd" and once remarked to his brother, "those fellows may try to old me up for more money and if they don't get it you know what they will do." He also said these obbers had threatened to kill him t he identified them, and several times alluded to the threats in ordering his financial affairs by notes to his brother and business assodates.

Blackmailers might have staged that holdup to get money from Hicks, which he had pretended not to have and refused to pay. A third fact summoned to sup-

port a blackmail theory is the unusual spectacle presented by Hicks during the last week of his life. He sat on a bed at his home and cried. and spoke of how much he wanted to live. He was apprehensive. pulling down shades and dodging automobiles whose drivers he suspected of following him.

All that week he lived in con-stant fear of assassination, but never asked for a police guard nor, so far as known, did he confide in his relatives the names of the men he feared. He appears to have accepted the certainty of his own murder with fatalistic resignation and proceeded to put his house in order, as well as he

On Friday evening, April 29, he spoke to his brother, Glenn, and handed him letters addressed to his wife, to Fox and to Crain; also a letter of instruction for Glenn. He told Glenn, according to the latter's sworn inquest testimony, "Give them these letters if I am missing or dead." He also, and this is regarded as the most significant fact on which a blackmail theory rests, told Glenn to destroy certain papers in his office if he should be "dead or missing." This behavior, investigators rea-

son, was that of a man who feared exposure at the hand of blackmailers , worse than he feared death. A man who dared would have gone to police with his story and have obtained a police guard. There were other ways of avoiding death, but Clifford Hicks chose none of them. On the last two days he was like a man danc ng a jig on some mysterious Panfora's box with assassin's pistols pointed at him. He dared not jump, it appeared, for fear secrets dared not call for help for fear his enemies would show their hand and send him to prison; he had nothing to do but live on, hoping for a "break" which would free him from his predicament. It

Appeals for Money.
Up to the last Hicks kept hoping, apparently. From the seclusion of hotel rooms obtained under assumed names he made numerous phone calls to try to raise money. Was it to appease blackmailers? He may have met some woman at the Elks' Club shortly before the murder only for the purpose of negotiating a last-minute loan. Davis says he appealed to him those last few days. Fox, Crain, Rector and Major all told of Hicks' pressing need for money. Major loaned him \$1500 the Wednesday before the murder. His business associates had issued an ultimatum to him that he must have \$1650 at the Page Bank by 1 p. m. Saturday or hey would call for explanations. They had caught Hicks diverting to his own uses that amount from the credit of the finance corporation

which Hicks was secretary.
The threats, the desperate need of money, the farewell messages, the fear of death suffered without appeals for protection, all paint the picture fo a man in the tolls of lackmailers—so goes the theory.

A Planned Crime.

Then, the murder. All investi-gators agree it was done either by nired killers, or at least men of gangster stripe who "bumped the guy off" with thoroughness and dispatch. All theories are agreed, that it was a planned crime and that Hicks must have been orced or lured into an automobile and shot to death on or near the lonely road southwest of Webster Groves, where the body was found. There are no facts thus far concerning the actual crime which would count a blackmail theory

On the morning of May 1, two hours before Hicks' body was found, his brother Glenn and his "man Friday" Davis went to Cilfford Hicks' downtown office and carried away a brief case filled with papers. Glenn insisted through many grillings that he was merely carrying out Clifford's orders. He said he did not burn the papers

A Shell Yellow-red Pump is Waiting to Serve You

The story of 400 "Extra Dry" is just this_Shell Gasoline has been greatly improved in quality, but the price to you remains unchanged.

400 "Extra Dry" takes its name from the 400° End Point specification to which it is refined. Gasoline produced to meet this rigid test is "extra dry" ... which means it is ALL gasoline ... free from those greasy parts which do not atomize freely. Any 400° end point gasoline is recognized in the petro-

leum industry to be of premium standard and heretofore has commanded a higher price.

Shell Gasoline is now a premium fuel in everything but price. It contains only the most volatile elements of the crude ... every drop vaporizes ... every particle is converted into power... there are no impurities or heavy ends to pass by the pistons unburned and dilute the crankcase oil

The quickest way to convince yourself that 400 "Extra Dry" Shell is no ordinary gasoline is to try it. Change to Shell today. Fill up the tank with this wonder fuel and put your car through its paces. You will speedily find that the merits of 400 "Extra Dry" Shell are more clearly apparent, more emphatic, on the road than anything we can say on paper.

Speed when the opportunity presents ... get-away that means minutes saved . acceleration that thrills and exhilarates ... these are every-day experiences for the motorist who uses 400 "Extra Dry" Shell.

Shell Yellow-red Service Stations and Shell dealers at convenient locations are ready to supply you with this new Shell Gasoline at the regular price . . . not one cent extra for the extra quality it contains or the extra service it will render

Diversion of Waters Through Crevasses Is Believed to Assure Safety of Lower Dikes.

v the Associated Press. NEW ORLEANS, May 27.—Danger to the levees on the east bank of the Mississippi below Old River robably has pased, Major-General Edgar Jadwin, chief of army enrineers, said today.

The vast amount of water being liverted from the Mississippi hrough the Atchafalaya as well as through the crevasses farther up the river, is believed to have assured the safety of the levees along the east bank.

Gen. Jadwin is supervising the work of the various flood control bodies, including the Mississippi River Commission, the Spillway Board and the Reservoir Board, all COMBINAof which will make reports to him

Further rise of the flood waters ALLS from the McCrea crevasse cut off the town of Morgansea late last night. McCrea is approximately 130 miles northwest of New Or-leans. Trains over the Texas & Pacific have been discontinued past New Roads, the parish seat of Pointe Coupee Parish.

Hundreds Left Behind. Hundreds of persons were brought out on the last train operated by the Texas & Pacific, bu t left other hundreds, unable t eave except by boat.

At Lafavette, relief authorities announced the drowning of two Negroes, the first authentic report of deaths due to the flood in that section. Water was reported as spreading rapidly in St. Martinille and Breaux Bridge, although few residents remained in each

A regular boat service has been stablished between Lafayette and Breaux Bridge. The Arnaudville and Breaux Bridge postoffices have been moved to Lafayette and are perating in the basement of the postoffice there. The Breaux Bridge and St. Martinville banks have also opened offices in Lafa-

Residents of the Bayou Vermilon section were further alarmed today as the water reached higher levels. Coulee Mine, which connects with the bayou, was rising rapidly and residents of Arbolado living close to the Coulee said that the water already was in their barns and garages.

Warning to Looters.
Col. James E. Edmonds, in charge of National Guard units at Lafayette, announced that National Guardsmen would be sent out into the flooded areas of this section with orders to shoot any persons found looting homes or other evacuated buildings. Some unrest has been reported in the refugee centers on account of looting re-

Secretary Hoover and his party left New Orleans last night for the section settled by French Acadians 200 years ago and expected to visit the refusee camps at La-fayette and Opelousas before refor the purpose of co-ordinating and consolidating the supply systems at these centers.

Flood Relief Director Parker today issued an order forbidding the sale of livestock owned by refugees except through authorized agencies. His order was given to stop any attempt at profiteering. He also ordered that no refugees be hired by labor agencies unless the employment were approved by he Red Cross. This step was takto prevent the Negro farm nands or of tenant farmers who owe heavy debts to planters from ing induced to leave the region and not return to their inundated

Months For Reconstruction. Reconstruction of the flood deeastated area of Louisiana will ost \$3,000,000 and will not be mpleted until next year, Col. W. H. Sullivan, chairman of the Louisiana Reconstruction Commit-

"We intend to take care of every flood sufferer until he is on his feet and producing again," said Sullivan, "and in that way keep our farmers and laborers in the state."
"A sum of \$500,000 for immediuse will be provided by the Red Cross, and this amount will be supplemented with sufficient funds to complete the gigantic task of reconstructing the farms of the

"With this emergency fund of \$500,000 we can begin at once, in North Louisiana, where the waters are receding . We will supply seed to the farmers, food supplies for man and beast, and what household goods are absolutely necessary. This is not a work of charity, nor are these people who were vic ims of this great disaster objects of charity, rather we are lending em assistance, helping them to become producers again."

Sullivan declared that if the people were permitted or forced to leave the flood devastated areas to make a living, it would be an even reater disaster than the flood. When the refugees return to heir homes they will find assistince awaiting them to make it posble to carry on until they are

in self-sustaining. 5000-acre refuge for flood vicns, below the level of the enreling waters will be constructed Pointe Coupee Parish, if engiring science can win a victory

mous Choice of General Assembly for Moderator.

sy the Associated Press.
SAN FRANCISCO, May 27.—The Rev. Dr. Robert E. Speer of New Jersey has been elected moderator of the Presbyterian Church in the United States of America at the General Assembly. He succeeds Dr. W. O. Thompson, president emeritus of Ohio State University. Dr. Speer was nominated by J. Willison Smith of Philadelphia, himself a candidate for the moder-

Dr. Hugh K. Walker of Los Angeles seconded the nomination. The motion was made that the nomina tions be closed and that Dr. Speer's nomination be made unanimous. By this time the assembly was

applauding the nomination and its unanimous acceptance was voted. Smith, who nominated Dr. Speer, was considered the New Jersey commissioner's strongest opponent and his support of Dr. Speer came as a surprise to the Assembly. The nine candidates listed to run for the moderatorship met behind closed doors Wednesday night and after long discussion agreed to withdraw from the field and support Dr. Speer. This move eliminated the possibility of the anticipated heated contest on the as-

sembly floor. Former Secretary of Missions. Dr. Speer is regarded as one of the best known and best liked Presbyterian leaders. For many years he was secretary of the Presbyterian Board of Foreign Missions, with headquarters in New York. His home is in Englewood, N. J. He is a native of Huntington, Pa., where he was born in 1867.

He studied in the Princeton Theological Seminary, but was never ordained into the ministry. Instead, he embarked on Mission of Edinburgh accorded Dr. Speer of few laymen who have that de

the opening session of the assem oly. The words of the retiring moderator were amplified in volume by loud speaker attachment hanging over the pulpit and his sermon on "The Gospel of Reconciliation," was broadcast by radio. Dr. Thompson appealed for less

Says Home Has Been Betrayed. "The daily newspaper furnishes all the evidence necessary for an intelligent mind to understand the heinousness of sin," he said. Materialism in our day and generaion has no more significant qualty than that it tends to substitute the lower for the higher. Under this philosophy men assume that wealth, public office, high social tanding are in some sense a certi-

icate of character." Sin has brought division and death into the most sacred and intimate relations. The home has been betrayed, the marriage vows vilated, by the lust of sin. Our domestic courts cry out in protest against the disorder of society."

The reconciliation of the world to in Christ is the persistent effort from generation to generation. The gospel of reconciliation pre sents Christ today as the suprem expression of the love of God and Lord to the redemption of men.

97 ENTOMBED MINERS DIED UNFLINCHINGLY, NOTES SHOW Message Left by Victim of Everettsville (W. Va.) Disaster

Found in Cap.
By the Associated Press. FAIRMONT, W. Va., May 27 .-More messages from the dead have been uncovered today by a rescue crew exploring the Everettville mine, where 97 lives were lost in an explosion a month ago. The messages indicated at least three of the men had lived for some hours after the blast had rocked the mine.

Four notes were found in the cap of Henry Russell, whose body, with those of two companions, was the last removed from the mine. Several days ago three notes signed by Russell were found in the workings. They told how Russell and his two comrades met death unflinchingly after they had made their peace with God.

The last note in the handwriting of Russell and timed three hours after the explosion was deciphered only with the aid of a magnify-ing glass. It read: "Dear wife: Still alive, but air is getting bad. Oh! how I love you, Mary."

"Dear father: I will be going soon. We are just cold and when the air comes, it will be bad as we are on the return side. Will plenty of time to make peace with

mand quality and put Camel first

THIS experienced age knows the good tobaccos it demands in a cigarette. And it has made Camel the greatest leader any age has ever known.

Camel's choice tobaccos and its blending for smoothness and mellowness have made it supreme with modern smokers. Camel today is world favorite, because of quality.

Camel was made to succeed in an age that knows merit. Just try Camels and you'll know why no other cigarette can compare with them. Let the choice of the modern world show you what smoking enjoyment can really be. "Have a Camel!"

Thus, without considering admissions, on a minimum estimate of the money handled, the profits from the mutuels for 60 days would be \$300,000. That is 400 per cent on the average greyhound plant's original investment. If the gate receipts pay the

operating expense of the plant, the profit becomes enormous. In many cases in Florida the revenue from the gate rivaled that of the betting booths. However, even if war must be

waged against rivals, the profits would still be large enough to make the investor feel happy.

The Last "Free Gate."

Sr. LOUIS experienced a "free gate" war once. That was 22 years ago when P. J. Carmody was engaged in his mortal struggle with the Western Jockey Club nich had refused the Union track regular dates.

POLITICAL CHURCHES. From the New York World.

THE inquiry which the Church Temper-1 ance Society is making among some 6000 Protestant Episcopal Bishops and clergy is not yet completed. But the importance of the issue raised by this church society is undeniable. It is an issue that is greater than prohibition—namely, whether the Protestant churches will continue to rely upon the power of the law to carry

out their moral precepts.

For one of the really serious evils of prohibition is that it has brought the evangelical churches into politics, has turned large numbers of pulpits into hustings and made lobbyists out of so many ministers. But more than all this; it has identified much of the moral prestige of the churches with the success of a highly doubtful political experiment. So closely have the interests of the churches become entangled with the politics of prohibition that a real or even modification of the law would almost be regarded as a defeat for the churches. This is fantastic and dangerous. The prestige of the churches ought to be more involved with the success of a law to regulate the liquor trade than with a law to regulate any other trade. The churches are concerned with the abuse of liquor as they are concerned with any other abuse which affects the character of men.

But they are not concerned, or rather they ought not to be concerned, with the Volstead act, rum runners, coast guards, jobs in the Treasury, industrial alcohol, doctors prescriptions and all the rest of the concrete difficulties which have arisen under the eighteenth amendment.

This entanglement of the churches in a political question not only diverts much of their attention from the cure of souls but it taints them with a kind of worldliness which has always been dangerous to churches. They have in fact sought and obtained temporal power; they have effectuated a partial union of church and state. That is not very good for the State, but is even worse for the church.

FREE SPEECH UPHELD. From the St. Paul Dispatch.

A N echo of an attempt about a year ago of a District Court Judge in Mississippi to muzzle the press in reporting testimony at a criminal trial is heard in the attempt of a New Orleans attorney to have the Court forbid publication in the newspapers of certain testimony at the ouster trial of a prominent Louisiana office holder. The Court's answer to the New Orleans attorney was prompt and to the point. He said: "I understand the newspapers have the right to publish a fair account of what happens re, and I am not aware that I can forbid them to report on what happens here.

In the Mississippi case the Judge threatened to imprison for contempt of court any newspaper man who published testimony in any newspaper having circulation in the county. The testimony was published, however, and the threat was never carried out. both cases the purpose was to avoid what it was deemed might be prejudicial to a fair trial. But above and beyond such a contention was involved the constitutional right of freedom of the press. What the Mississippi Judge and the New Orleans attorney sought was a kind of star chamber session.

The retreat of the Mississippi jurist and the prompt refusal of the New Orleans Judge to attempt to impose unreasonable restrictions upon the printing of legitimate news are simply the recognition of the fundamental principle of free speech as set forth in the Constitution of the United

SCHOOLMASTER AND THE YOUNG REPORTER.

From Student Life, Washington University. DERSONALLY, we don't give a hang about Coolidge's boyhood, and if the comparative attendance at Graham chapel and Ridgley Library steps during the last convocation is an acceptable barometer, the rest of the school doesn't either. It was then, only an insatiable curiosity to see the mixture of Rotary Club speaker and Calvin Coolidge's boyhood that drew us out to the last chanel.

We discovered from Mr. Carpenter that no signs of greatness appeared when Cal was a boy; the sleepy little town of Plymouth merely went lazily about its task of making Coolidge a President. That's perfectly normal; Coolidge, himself, is proof

of both statements. We seem to find nothing in anything Mr. Carpenter said that was significant or that might account for such a streak in Calvin Coolidge as his refusal to call a special session of Congress for flood relief. It strikes us that there ought to be something worth while in a chapel, something to carry away

A Real Test of a Beauty Soap

Women love dainty things, and of course when it comes to buying an item as intimate as her toiler soap, every woman looks for daintiness and will hardly be satisfied without it. So it comes about that a woman who uses nothing but Castile for the tender skin of her baby -and that's the perfect test for a complexion soap! -has had to buy something else for herself, something daintier and more feminine, to go with her other charming toiletries. Though of course knowing all the time that Castile is best! But now she doesn't have to make that choice, because here is Doña* Castile for her, an exquisite Castile, a true Beauty soap in every sense-a beautifully molded cake, in a charming wrapper, and above all a Castile that will give her an instant generous lather even in cold water! A lather too that rinses instantly -and this is a most important virtue for women with delicate skins. Of course unscented, fragrant only with the odor of its own pure vegetable oils, like all fine Castiles. A Castile so bland that you would use nothing else for the baby, so exquisite that you would use *Pronounced Don-ya. nothing else for yourself. Buy it

Q. How does the Flat Band Method build longer wear into United States Tires?

A. The Flat Band Method, invented and patented by the United States Rubber Company, puts longer wear into a tire because it is the most precise method of tire building ever developed.

It is comparable to the exact engineering practice of bridge design and construction. Just as the position, length and load of each cable in a bridge are calculated and fixed in advance. so with the cords in a United States Tire.

By the Flat Band Method the plies are laid without tension. The length of each cord is precisely right. The relation of the cords, one to another, is exact.

The result is a tire in which uniform tension and strength of every cord are assured. The load is equalized all around. Longer wear follows.

LIFE UNBEARABLE ITCHING HANDS

Healed at last easily and quickly

Brooklyn, N. Y., July 28:—"For months all my fingers on both hands were covered with red, itchnands were covered with red, itch-ing sores. They frequently gave out a watery fluid, and that, to-gether with the terrible itching, made life almost unbearable. As business necessitated having hands in water a great deal, the suffering was made even worse. Doctors diagnosed my case as chronic eczema, but none of the prescribed salves helped me. Fin-ally I began to use Resinol Oint-ment and Resinol Soap. Now, after using two jars of this Ointment I am glad to say I am rid of my skin trouble and my hands are per-fectly clear."—(Signed) J. Plans for September Contest -Other Events Planned.

By the Associated Press.
WASHINGTON, May 27.—The
National Aeronautic Association has approved plans for an air race from New York to Spokane. Wash., to start Sept. 20, for a prize totaling \$33,000. The project is sponsored by Spokane business men and an invitation to compete will be sent to Capt. Charles A. Lindbergh, New York-to-Paris

Prizes totaling \$3500 were offered at the same time for a similar race from San Francisco to Spokane. In both event entries are limited to commercial planes and pilots.

Tentative plans for the transcontinental race fix the route over the northern section of the country, with stops required at Chicago, St. Paul, Fargo, N. D., and Glendive and Butte, Mont. Other stops may be made wherever the pilots see fit.

The long distance events will be followed by the National Air Races at Spokane on Sept. 24 and 25. Non-Stop Seattle-to-Tokio Purse to Be \$25,000.

By the Associated Press.
SEATTLE, Wash, May 27.—
Rules to govern a proposed nonstop flight between Seattle and Tokio were discussed by a committee of the Chamber of Com-merce and local member of the National Aeronautical Association here yesterday. Pledges toward a purse of \$25,000 have been made. It is proposed that planes be permitted to add fuel in the air at any point within 50 miles of the take-off. This would be necessary, it was thought, because of the difficulty planes would encounter n taking off with a sufficient load of gasoline to make the journey of more than 4100 miles.

CLOSE SCHOOL YEAR

When Planning Parties for Menus Carefully.

The close of the school year brings with it many kindergarten parties and like festivities. These affairs may be as elaborate or as simpleas the children participating may wish but someone, teacher. president of the Mothers' Club, or a school mother, must be elected to plan what the youngsters will eat at their party, and upon her shoulders there falls a grave responsibility. The well brought up child of today does not gorge upon sweets at all hours, nor is he or she allowed to investigate without supervision the culinary joys of the grown-up world. It would never do for the hostess in charge of refreshments to serve some dainty of her own selection to neighborhood children who had never been allowed such an indulgence in their lives.

The mother who is offended

her children are served bread and butter and milk and apple sauce when playing "tea party" with their next-door neighbors is being replaced by the wise parent who sees these simple foods as the only wise diet for the young. Consequently the teacher or mother who plans the party part of the party may feel sure that in preparing only the simplest of dainties she is winning the approval of every mother in her

The best party beverage for children seems to be iced cocoa, which has a close rival in the simple pure fruit beverage. Neither should be too generously sweetened, although the chocolate might be topped with marshmallow just to be festive.

If the merrymaking is held at the school, so that the teacher is not in direct contact with the parents, the wisest refreshments will be very simple, with a beverage and sandwiches.

Cottage Cheese Soup. Make thin cottage cheese sauce use preceding rule), neutralizing the acid of the cheese with baking soda. Season by reheating with slice of the yellow part of the lemon rind and a blade of mace or a little nutmeg. No one of these flavors should predominate, and the seasoning should be very delicate. Serve croutons with this soup.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORE, May 27.-The Evening Post in its copyrighted finan-cial review today, says:

"Continued active speculation for the rise in railroad stocks and anvelopments in today's 'financial markets. Profit taking in anticipation of the recess over memorial 1 day Monday checked the upturn in 1 rail shares in the final hour, but offerings seemingly were well absorbed and recession were limited. was revived and a generally strong market prevailed in stocks. Corn at \$1 a bushel again was hailed in the financial district as a sign of prosperity after the coarse grain had been bid up five cents a bushel. In the bond market a steady tone prevailed but the general list held in a narrow range. general list held in a narrow range.

Rails, Then Industrials.

"Speculative interest centered largely in the railroad issues until late in the session, when injustrials became more prominent. The early movement in shares of prominent carriers was featured by unusual activity in Wabash, which sent this stock up to its previous high for the year and by a new wave of buying in several other non-dividend issues. Western Maryland, Chicago & Alton, Chicago Great Western and other speculative favorites were bid up 10 vestment shares in the group con-tinued strong. New York Central responding with an advance to a new top. With a revival of messer reports and denials, interest cen-tered in stocks of companies which might be involved. Special-ties again demanded attention too, among the active ones being Pitts-burg Coal, National Distillers. General Refractories, Lehn & Fink, Gabrail Snubbers and Abitibi Power, all at new highs.

Credit Situation Helps.

the demand was sufficiently strong to sustain the 4½ per cent renewal rate established on the Stock Exchange. Time money was slightly easier, however, and pool op-erators appeared to be plentifully

MEDITATIONS MARRIED WOMAN By HELEN ROWLAND

EPIDEMIC OF ROMANCE The seers have prophesied a renaissance of romance, a revival of love, and a positive epidemic of marriage!

Oh, glad and glorious news! Oh, beautiful solace to the hearts of bored and restless women, who are tired of pocket-flask sentiment, and weary of being kissed-and forgotten!

And whether you believe the seers and the stars or not, there are signs in the air, everywhere! Sure as your grandmother rolls her hose and bobs her hair, Romance is coming back!

For a whole year boarding-school girls have been letting their hair grow long. These young things who have never before known "the lure of woman's crowning glory," are getting a thrill out of it. It gives them a "kick" to picture themselves as right in the class with Guinevere, Lady Godiva, and the Princess Lettuce! Signs num-

Sign number two-the revival of poetry. More poetry is being written, and read, today, than at any time in the last decade; and a slender volume of verse is one of the spring's best sellers. Poetry

Sign number three-the recent "Carnival of Imagination," staged in New York with such brilliant success.

Imagination is the breath-of-life romance. But in our mad passion of "fats." sophistication, and stark, cold "truth," we have tried to choke out our imaginations. They have almost died of starvation and lack of exercise!

Sex, like hunger, is a part of life. But we don't glorify a glutton. We don't write novels about a man with a passion for artichokes or spring onions! Why glorify a man with a passion for petting? Sex is OUT, as a popular topic of discussion-as "out" as ping-pong and sunbonnets!

The only enemy to romance that is still feebly struggling for existence is the jazz-band. And, the Lord willing, this too shall pass

Music is the soul of romance! But you can't expect a man's "the music of violin and cello."

Oh, there is no doubt that the renaissance of romance is on its way! And when the miracle happens, there will be fewer hungry, restless girls tearing around in the mad race for something to make them forget that they are missing life's most beautiful gift-ro-

Children's Bedtime Story By THORNTON W. BURGESS.

Play safe from dawn to set of sun; Play safe and just forget the fun.

HERE was a great mystery on the Green Meadows. Yes, sir, there was a great mystery on the Green Meadows. All the little Meadow people were puzzled. They didn't know what to make of it at one to note the fact that apparently Old Man Coyote could be in two places at one time. Peter was ting on the edge of the dear Old Briar-patch just after jolly, round, red Mr. Sun had gone to bed behind the Purple Hills; and Peter was trying to make up his mind whether to go over to the Green Forest, or to remain at home in the dear Old Briar-patch.

there, is any sense at all in that head of yours," said little Mrs. Peter, "you will play safe; and to play safe you will remain here in the dear Old Briar-patch where you belong.'

Now little Mrs. Peter is, as you know, much more timid than Peter. Peter rather enjoys the excitement of a chase once in a while. So Feter had just about made up his mind that, in spite of little Mrs. Peter's advice, he would go over to the Green Forest that night. In fact, he was just about to start when he heard the voice of Old Man Covote over in the Old Day.

"It came from the edge of the Green Porest," said little Mrs. Pet"Are you sure" inquired Peter, and just as he spoke that voice sounded again from the Old Pasture.

An Overworked and Crushed Wife's Appeal

Here's a Large Family With a Surly Brute at Its Head

By WINIFRED BLACK.

Dear Miss Winifred Black: HERE's a real letter from a real most, until it almost drives me siders in it.

Look out for yourself, my dear, call my own, although I keep one and look out for your children.

I am 32 years old and I have been married 16 years; have been a mother eight times, have five children living.

health has been bad, have had two opstrations and have spent weeks in the hospital. We are just poor people and my husband blames me for being sick. I have always done all my own work even when it hurt me, because he fusses and curses if I have any of the work done. I have worked so hard to keep down a fuss, for I think it is a disgrace to raise children in a fuss and an uproar.

My husband comes home every

Because it treats each head of hair according to its individual requirements, you may decide in advance just how tight or loose your wave is to be . . . But you are not getting a Circuline Wave unless your hairdresser uses authentic Circulines, individually wrapped, and stamped with the name "Nestle Circuline". You will recognize them as she immerses one for each curl in clear, fresh water.

Avoid substitute formulas, containing lye, ammonia, potash-dangerous to the hair. Demand authentic Circulines. They alone assure you of a perfect permanent wave!

OF THE MOTION PICTURE WORLD REPLETE WITH ROMANCE AND INTRIGUE

Cornelia Marsh, employed in the scenario department of Hertzog's motion picture studio at Fort Lee, learns with sorrow that Henry Horner, the head of the department, has been fired by Lyman Hertzog, son of the owner of the studio. Every one knows that Lyman is jealous of Henry because he is in love with Dulcie Jayne, the star of the studio, but Dulcie seems to prefer her director, Daniel K. Leland. Mr. Hertzog suggests to Lyman that they feature Leland as an actor as well as a director.

HERTZOG leaned toward his son with a rising simmer of nthusiasm. "In sheiks, now, and Glynn lovers and villians hat have been treated badly, Leland's last years yet. Look, Lymie, in a long term contract I'd mix in sometimes a good powerful and seeing things. Why, once in a while, just for the publicity, with a man distinguished the way Leland is, we could afford to do a real high brow intellectual picture, that you don't have to pay no royalty en, like 'Othello' or 'The Raven.' I tell you, Lyman, I think we got all along something good we ain't cashed in on."

Lyman was slowly petrifying against the wall; if there was a volcano within him even smoke had ceased to ascend. "You've de- leature him with her, maybe! Bracket them together like you'd cided he's going to play it, then?"

Miss Jacobs, having bolted ice cream and crackers, had quietly returned to work. Verona Revelle and her director had sent down tures! If that's what you want, you'll get it! asking for the reports on all the serials of last month's magazines and Miss Jacobs was sorting out these reports, preparatory to conveying them herself. Within the catalog the fate of every story that passed through the office was impaled forever on a card which bore its name and that of its author; its date of arrival, its date of return, the name and verdict of its reader, as well as all the more intricate proceedings following a reader's recommendation-it was not thinkable that these reports should pass out of Miss Jacobs' own hands. Miss Jacobs may have no romantic streak about rivers or screen actresses, but about her card catalog romance had bitten her to the bone. It was a romance which maximated her ego, as the psychoanalysts say, with a queer, staunch business-like little thrill. For she was perfectly aware what other spirit stood with her within the sanctuary. The lesser dignitaries of Perfection Pictures might act snooty with the scenario department, but she sensed the weakness of the All-Highest. If Miss Jacobs was the High Priestess of the card catalog, its devoutest worshiper was

Very secret was his thrill that there, safe-locked, visible, tangible, so that he could take it out and handle it lay his scenario department's business honor, kept free from rust and blemish, whole and bright. And no man could say that it was otherwise.

It had not always been thus. Time-was! Both for the motion picture business and for Mr. Hertzog. But since then there had been a great washing of fleece. The lambs now come into the flock sometimes with whispered legends of awed amusement concerning the bad old days, Mr. Hertzog taking pleasure in listening as if the legends were news to him; surrounded by his legal department . Mr. Hertzog, who was sensitive and had a-yes-a romantic streak liked to look out upon the few black sheep still nibbling the rocky · ground of forbidden pastures and savor the sensation of his fleece's

For no hungry little boy, starting out on his dream of growing up President of Perfection Pictures, dreams of growing up less than honest. His poverty may force him to blur his dream. He may come to know that there is no such foolish and wicked gabble in the world as the gabble about honesty being poverty's prerogative But all the more does he know, when the time comes, that the clean, prim honesty of his filing cabinet looks him coolly in the face, that now he has made himself free from that bone-breaking grip of poverty, forcing him to bear false witness against himself However, Mr. Hertzog had blurred his dream, his dream had made hand of his business instinct had brought him and his romantic streak together, what enemy alien of an author could now accuse Perfection Pictures?

Mr. Hertzog could never have put this into words to Miss Ja. SILENT NIGHT FOR - WCBD. cobs and it would have scandalized Miss Jacobs if he had. A voice of marble calm replied. 'He can never in this world get a divorce. And I asked you don't call me Lymie!"

"Well, not only him but anybody. I don't want her marrying, legal or illegal! Because a girl that's got it as bad as it looks like KMOX.
